📍 Fort Worth, Texas

PROFILE

- A results-driven software engineer, quick to learn new technologies and adapt easily to various working environments.
- Ability to collaborate with others and can write clean, scalable code.
- Passionate learner, always ready to learn and apply technologies needed to solve technical problems.

PROFESSIONAL EXPERIENCE

Front-End Engineer
Autobahn Limo

06/2021 – 05/2022 | Chicago, IL

- Utilized React to develop and maintain a modern, highly interactive ride-booking web application, providing a competitive edge over other companies.
- Created cross-browser-compatible landing pages and email templates to increase limousine ride requests by 31 percent.
- Continuously improved the application by Integrating features such as travel-time API that display the distance, destination, and duration of a ride.

WordPress Developer
Freelance

12/2020 – 05/2021 | Chicago, IL

- Generated and customized WordPress sites making them responsive across all platforms to improve customer experience.
- Proposed and implemented plugins to track user visits and display upsell pop-ups, generating additional revenue.
- Prevented potential web attacks by collaborating with other developers to troubleshoot and integrate security tools on client websites.
- Optimized websites for Search Engine Optimization (SEO), improving site visibility to page 1 on google.

Marketing Technologist
Howard Johnson Hotel

09/2019 – 04/2021 | Springfield, IL

- Implemented Customer Relationship Management tools to understand and measure the growth of hotel revenues.
- Built marketing assets such as emails, landing pages, and blog posts to increase the number of repeat customers.
- Developed and maintained a web manifest to help keep count of hotel supplies and reduce excess inventory.
