📍 Fort Worth, Texas

PROFILE

- Experienced and highly motivated Software Engineer specializing in full-stack development, with a passion for designing and delivering innovative software solutions.
- Proficient in a wide range of programming languages, frameworks, and tools, with a proven track record of collaborating effectively with cross-functional teams to create high-quality applications that meet business objectives.

PROFESSIONAL EXPERIENCE

Software/Forms Developer
Texas Family Initiative
03/2023 – present | Remote

- Designed and maintained software forms for the Agency's enterprise applications, using C#, VB.Net, ASP.Net, Azure DevOps, SQL Server, and JavaScript/TypeScript.
- Collaborated with Agency staff to analyze, plan, and implement forms-related needs, ensuring operational software and compatibility with staff's requirements.
- Advised management on software-related activities and requirements.

Front-End Developer
Change Healthcare
11/2021 – 03/2023 | Lombard, IL

- Delivered high-quality, responsive, and user-friendly web applications on-time and within budget.
- Implemented and maintained responsive design principles resulting in a 20% increase in mobile traffic.
- Conducted cross-browser compatibility testing and executed performance optimization strategies, resulting in a 30% improvement in website speed.
- Troubleshoot and debug technical issues to maintain web application functionality, resulting in a 95% uptime rate.

Front-End Engineer
Autobahn Limo
06/2019 – 09/2021 | Chicago, IL

- Developed and maintained a modern, highly interactive ride-booking web application that provided a competitive edge over other companies and increased limousine ride requests by 31 percent.
- Collaborated with the marketing team to create highly effective landing pages and email templates that increased the 2021 revenue and played a huge role in the company acquisition.
- Led a new application feature initiative that required coordination with cross-functional teams.

WordPress Developer
Upwork
12/2018 – 05/2019 | Chicago, IL

- Generated and customized WordPress sites making them responsive across all platforms, improving the customer experience, and increasing the number of positive reviews.
- Proposed and implemented plugins to track user visits and display upsell pop-ups, generating additional revenue.
- Optimized websites for Search Engine Optimization (SEO), improving site visibility to page 1 on google.
