📍 Fort Worth, Texas

PROFILE

A results-driven front-end engineer, quick to learn new technologies and adapt easily to various working environments. Proven ability to work on demanding projects with strict deadlines. Passionate learner, always ready to learn and apply technologies needed to solve technical problems.

PROFESSIONAL EXPERIENCE

Front-End Engineer
Autobahn Limo
Jun 2021 – May 2022 | Chicago, IL

- Developed and maintained a highly interactive ride-booking web application using Javascript-ES6, CSS, Sass, HTML, Firebase, and Formspree.
- Designed and created cross-browser-compatible landing pages and email templates that led to an increase in limousine ride requests by 18 percent.
- Continuously improved the application by Integrating features such as traveltime API that enabled customers to see the distance and destination of a ride.

WordPress Developer
Freelance
Dec 2020 – May 2021 | Chicago, IL

- Generated and customized WordPress sites making them responsive across all platforms, and improving customer experience.
- Proposed and implemented plugins that track user visits and display upsell pop-ups, generating additional revenues for clients.
- Prevented potential web attacks by collaborating with other developers to troubleshoot and integrate security tools on client websites.

Marketing Technologist
Howard Johnson Hotel
Sep 2019 – Apr 2021 | Springfield, IL

- Implemented Customer Relationship Management tools that helped understand and measure the growth of hotel revenues.
- Built marketing assets such as emails, landing pages, and blog posts that led to an increase in repeat customers.
- Developed and maintained a web manifest that helped keep count of hotel supplies and reduce excess inventory.
